

# → AW1697 Cabinet Columns & ACC Telescopic Columns

AW1697/6

## AW1697

Height range 4.5m - 15m

A cost effective and comprehensive range with most models available 'ex stock', offering a good level of security. The column base post has a built in cabinet for mounting equipment within the one unit, therefore providing cost savings where a separate cabinet would otherwise need to be used. Suitable for installations where the public has access, these columns have an internal padlock facility. The range is generally for light to medium fixed and PTZ applications, but there are also heavy duty (HD) options for high loading PTZ and dual lighting & CCTV applications.

### Typically used for the following types of installation

- o Industrial and commercial premises
- o Perimeter detection
- o Utilities sites
- o Schools and universities
- o Sports stadia
- o Railway platforms & car parks
- o Car parks
- o Petrochemical sites
- o Securing compounds

### Security Features

- o Internal cabling
- o Internal padlock facility
- o Close fitting flush doors
- o Solid secure heavy duty door locks

### General Features

- o Modular construction for ease of assembly and installation on site
- o Ideal for restricted access areas
- o Provides stable mounting platform for all camera types
- o Demountable winches ensure tilt down models are secure and reduces costs on multiple installations
- o Tilt Down models enable camera maintenance at ground level, therefore reducing maintenance costs
- o Tilt Down models available in both bolt down and embedded base versions
- o A wide range of standard Altron Accessories and Brackets available ex stock
- o Quick turnaround for larger projects
- o Constructed in high tensile steel and hot dip galvanised after fabrication for durability
- o Option of painting over the galvanised finish in colours available from BS and RAL colour charts
- o For design, manufacturing and finishing standards, see details on page 107

ACC/TEL/8

## Telescopic

Height range 4m - 8m

Altron's range of telescopic columns offer the facility to maintain camera equipment at low level without the need to 'tilt-down' the column. This has the advantage of enabling maintenance for cameras in restricted area locations where a cherry picker does not have access. The range is for light to medium fixed and PTZ applications.

### Typically used for the following types of installation

- o Industrial and commercial premises
- o Railway platforms
- o Railway marshalling areas
- o Roof mounted locations

### Security Features

- o Internal cabling
- o Close fitting flush doors
- o Solid secure heavy duty door locks
- o Padlockable winch cover and cable guard

### General Features

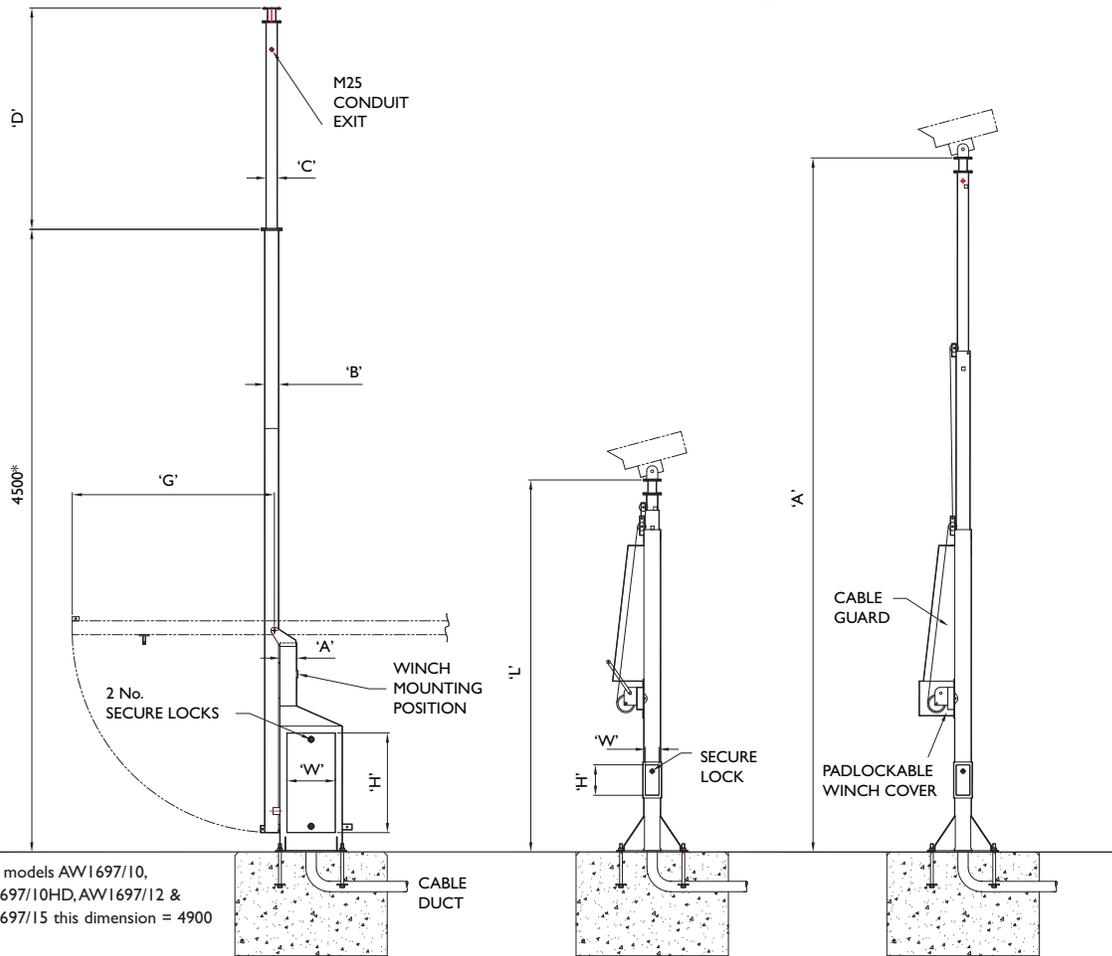

- o Enables cameras to be mounted in locations that they otherwise could not be.
- o Ideal for restricted access areas
- o Provides stable mounting platform for all camera types
- o Enables camera maintenance at ground level, therefore reducing maintenance costs.
- o A wide range of standard Altron Accessories and Brackets available ex stock
- o Constructed in high tensile steel and hot dip galvanised after fabrication for durability
- o For design, manufacturing and finishing standards, see details on page 107

# AW1697 Cabinet Columns & ACC Telescopic Columns Technical Specification ←

Modular Towers & Columns

## AW1697 Cabinet Base Column

## ACC Telescopic Column

\* On models AW1697/10, AW1697/10HD, AW1697/12 & AW1697/15 this dimension = 4900

Tilt down columns are fixed in the vertical position with an M20/M24 nut screwed onto the column retaining bolt which enters into the secure access hatch through the front of the post. This is then padlockable to stop unauthorised tilting.

All camera mounting plates are  $\varnothing$  127 with 8 No  $\varnothing$  8.5 equi-spaced on 101.6 PCD.  $\varnothing$  40 thro' column spacer

Telescopic column suitable for restricted site access locations. E.g Railway yards/platforms where camera needs to be serviced at ground level
